Program: Water

Program section "Water" focuses on sailing, paddling, fishing and other water based adventures.

Brown Trout and Arctic Char are the native species in the Lake Úlfljótsvatn – excellent food and as fresh and natural as can be. The best fishing season is mid-June to mid-August. Fishing permit is included in camp- or accommodation fee (zone 2). You can bring your own fishing gear or rent a rod and buy tackle at our Service Center.

The activity is ...

- ... Free. No rentals needed, but if needed, you can rent fishing rod at the center.
- ... Available from May to August
- ... Run at the center
- ... Run by guests (self-guided)
- ... Child-friendly and suitable for young participants.

About the activity:

For campers or those staying in our huts, fishing on zone 2 (see map) is included.

Additional fishing permit for zones 1, 3, 4 and 5 can be bought on-site.

The estimated number of fish in the lake is 3 millions.

Tackle is sold in our Service center, where you can also rent a fishing rod.

You're more than welcome to bring your own fishing gear.

You can also rent a row-boat and fish on the lake, as long as you are South/West of the lake's central line.
